Important Company announcement

Leamington Spa based manufacturer of liquid level, temperature and pressure sensors and switches, Fozmula Limited, has had a busy month celebrating receiving a major business award and also its 20th birthday.

Fozmula's last financial year saw it beat all previous figures by over 25% with a huge contribution from new and existing overseas customers. As a result of this increase in exports Fozmula decided to enter the Coventry Telegraph's Exporter of the Year Award competition. Having been shortlisted, a team from the Company attended the awards presentation ceremony and much to its surprise scooped the first prize. After the presentation by motoring journalist, Quentin Willson, Fozmula's Managing Director, Steven Jackson, said "We entered the Business of the Year Awards in 2006 and 2007 coming runners up on both occasions. To win this year is a great tribute to the hard work put in by staff and Directors which resulted in a record year and subsequently this prestigious award."

A month later on June 10th Fozmula took over Warwick Castle for the evening to hold a Kingmaker banquet as part of its 20th birthday celebrations. Although the Company has been trading for almost 35 years, it has been based at its Berrington Road factory and warehouse for the past 20 years and the Directors thought it appropriate to recognise this with a 'bit of a do'. During the evening a number of the staff were pleasantly surprised to receive long service awards based upon 10, 15, 20 and 25 years with the Company. Steven Jackson commented "I attribute the continued success of Fozmula to the quality of the people working for it and having the stability of a number of long serving members of staff in key positions. The birthday celebration was a way in which the Company could say thank you to its entire staff in a local and unique venue."

As a finale to all of this social activity, late in June saw Fozmula entering 2 rafts into the Wellesbourne Lions charity raft race from Wasperton to Stratford to raise funds for promoting awareness about Prostate Cancer. Roland Smythe, Financial Director and organiser of the raft entries said "We are delighted to again support the Lions raft race after several years' absence, but when we reach Stratford I think it will be time to have a rest from all of these activities for a while."

For almost 35 years, Fozmula Limited continues to design, manufacture and market a wide range of electromechanical, mechanical and electronics sensors, gauges and switches for equipment requiring liquid level, temperature and pressure measurement worldwide.
